

I am a regular K-LOVE listener and my life benefits greatly from the service provided by this radio station. Additionally, I know many people in the San Diego area of CA who are reached every day by K-LOVE and impacted positively. If K-LOVE was no longer able to broadcast because of LPFM stations lives would be drastically and negatively affected because of the lack of regular, positive messages like the ones that K-LOVE provides. K-LOVE greatly benefits the public in the San Diego area by providing support during difficult times in the form of counseling and prayer and also by providing free broadcasts of events through non-profit agencies. K-LOVE is a service to San Diego even though they do not broadcast out of our area, and San Diego needs K-LOVE to meet specific needs that would not be met by any other media here in the area.
